

DOHA SERHAN

Full Stack Software Developer

+9613836629 • dohaserhan003@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#) • Beirut, Lebanon

Summary

Junior Backend Developer with production experience contributing to healthcare and education platforms using Laravel, Django, and Django REST Framework. Experienced in developing backend services, REST APIs, authentication and authorization, business logic, and relational database solutions with PostgreSQL and MySQL. Exposure to Docker and microservices-based applications, with experience working in collaborative development environments using Git and a strong commitment to building scalable, maintainable, and production-ready software.

Experience

NERUOS

Beirut, Lebanon
09/2025 – 03/2026

Junior Full Stack Developer

- Contribute to the development of production healthcare systems using Django and Django REST Framework.
- Design and implement RESTful APIs, business logic, and backend modules.
- Implement authentication, authorization, and role-based access control.
- Design and maintain relational databases using PostgreSQL.
- Integrate backend services with Amazon S3 object storage.
- Collaborate using Git/Bitbucket, participate in code reviews, debugging, and feature development.
- Gain hands-on exposure to microservices architecture and production development workflows.

Projects

- **Clinic Management System:** Developed backend modules using Django for patient records, appointment scheduling, billing, and reporting. Tested application functionality using Postman.
- **Speech Therapy Platform:** Engineered a full-stack solution using Django REST Framework (DRF) for the backend and React for the frontend.
- **School Management System:** Contributed to the backend development of a production Laravel-based school management system, implementing database-driven features to support academic operations.
- **Medical Center System:** Contributed to the backend development of a microservices-based medical center management platform using Django REST Framework (DRF).

Education

Lebanese University
Bachelor of Science in Computer Science

Beirut, Lebanon
2022 - 2025

Technical Skills

Backend: Laravel, PHP, Django, Django REST Framework (DRF), REST APIs.

Frontend: React, JavaScript.

Databases: PostgreSQL, MySQL.

Cloud & DevOps: Docker, Amazon S3.

Tools: Git, Bitbucket, Postman, VS Code, PyCharm.
